The Journal of Korea Water Resources Association is an interdisciplinary journal, launched in 1968 and published monthly by the Korea Water Resources Association. Abbreviated title of the journal is 'J. Korea Water Resour. Assoc.'. The journal is devoted to the publication of original scientific and technical papers, reviews, technical note, policy note, short communications, and discussions in the science of water resources. The Journal aims to provide a platform for the dissemination of research and engineering applications related to water resources, hydrologic, and hydraulic problems. The scope of the journal encompasses development of new experimental, numerical, theoretical, and analytical approaches in water resources. All submitted manuscripts are peer-reviewed by selected reviewers for their originality and contribution to water science and engineering.
